

COMPARISON REPORT – FY2025 D-4 Allston

AssessingAgents vs. City of Boston Assessor's Office
July 24, 2026

INTRODUCTION

Six residential properties in Allston's D-4 district were valued independently for fiscal year 2025: once by the City of Boston's Assessing Department and once by AssessingAgents, a machine-driven valuation system using only public data. Both results were measured against the same arm's-length sale prices – time-adjusted to the January 1, 2024 assessment date at 4.0% per year – to produce a single, fair sales ratio study.

PARCEL -LEVEL COMPARISON

All figures in USD. Sale prices are from Zillow (MLS PIN), retrieved July 2026. A ✓ marks the ratio closer to 1.000.

Address	Sale Date	Sale Price	Time-Adj. Market Value	Assessor Value	Agent Value	Assessor Ratio	Agent Ratio
10 Adamson St	2026-06-05	\$965,000	\$877,423	\$737,300	\$729,600	0.840 ✓	0.832
48 Aldie St	2024-09-30	\$1,630,000	\$1,582,910	\$1,580,400	\$1,626,900	0.998 ✓	1.028
49 Bayard St	2024-05-23	\$1,430,000	\$1,408,209	\$1,347,700	\$1,378,000	0.957	0.979 ✓
54-60 Holton St #58	2025-11-21	\$915,000	\$849,656	\$1,032,800	\$859,200	1.216	1.011 ✓

Address	Sale Date	Sale Price	Time-Adj. Market Value	Assessor Value	Agent Value	Assessor Ratio	Agent Ratio
85-87 Adamson St Unit 2	2025-04-30	\$755,000	\$716,686	\$698,200	\$643,900	0.974 ✓	0.898
90 Easton St Unit 2	2024-11-26	\$799,000	\$771,183	\$689,300	\$725,000	0.894	0.940 ✓

KEY METRICS

Metric	Assessor	Agent	IAAO Standard
Assessment Level (Median Ratio)	0.966 (96.6%)	0.959 (95.9%)	0.90 – 1.10
Uniformity (Coefficient of Dispersion)	8.58%	6.04% ✓	5.0% – 15.0%
Vertical Equity (Price-Related Diff.)	0.999	0.987	0.98 – 1.03

WHAT THE METRICS MEAN

Assessment Level (Median Ratio) – How close assessed values come to market value. 1.000 means a perfect match. Both sides land inside the IAAO range; the Agent is slightly more conservative (95.9% vs. 96.6%).

Uniformity (Coefficient of Dispersion) – How consistently properties are treated. Lower is better. The Agent's 6.04% beats the Assessor's 8.58%, driven largely by one parcel (54-60 Holton St #58) where the Assessor's ratio reaches 1.216 versus the Agent's 1.011.

Vertical Equity (Price-Related Differential) – Whether cheap homes are assessed differently from expensive ones. Both rolls fall inside the IAAO range and are effectively tied (0.999 vs. 0.987).
